RE: LONS 97-007, ConocoPhillips Alaska, Inc., Colville River Unit, CD1, S1 and S2 Module Platforms Unit Plan of Operations Amendment Decision.

Dear Ms. Gonzalez:

The Alaska Department of Natural Resources, Division of Oil and Gas (Division), in accordance with Alaska Statute 38.05 and Alaska Oil and Gas Leasing Regulations (11 AAC 83) grants authorization to conduct activities on state lands as proposed in the Colville River Unit (CRU) Plan of Operations (Plan) amendment application dated August 20, 2018 for the above referenced project.

Scope:

ConocoPhillips Alaska, Inc. (CPAI) requests authorization to modify the existing S1 and S2 modules by adding a platform adjacent to each of the modules at the Colville Delta 1 (CD1) gravel pad located within the CRU. The existing generators, currently located inside the modules, will be moved to the new platforms outside. The new platforms will each require two vertical support members (VSMs) and three bollards. The VSMs will be installed via the slurry method. The existing stairs will be relocated to accommodate the installation of the new platforms. All project work will occur on the existing pad.

Plan activities include:

- Installation of VSMs measuring approximately 12 inches in diameter to a depth of approximately 40 feet.
- Installation of S1 platform measuring approximately 24 feet long by 16 feet wide.
- Installation of S2 platform measuring approximately 35 feet long by 24 feet wide.
- Relocation of the generators.
- Installation of three bollards.
